EWF INTERIM PRESIDENT STATEMENT

“In this moment it is important that we take the findings from the ITA report seriously but also allow for due process with regards to the allegations.

I feel a strong sense of responsibility when assuming the role as Interim President of the EWF during a difficult time.

My goal is to work for unity, continued reform and strengthening of the weightlifting sport in Europe and in the world.

We must be united in our fight against doping. I want to listen to all people and help bring the right ideas from word to action.”
